4. WHAT PERSONAL INFORMATION WE COLLECT FROM YOU

GENERAL

Customers purchasing products or services will be required to provide additional Personal Information such as a valid credit card number, expiration date and shipping and billing addresses. With the exception of certain technical information later described, we do not collect any Personal Information from you unless you provide it to us voluntarily (e.g. through interaction or registration with the Sites).

If you decide to provide us your Personal Information, it will generally be for: (1) account or product registration, or registration for online game participation; (2) the purchase of goods or services through our online store (including the purchase of in-game digital items (“**Virtual Items**”)); (3) message boards or forums; (4) newsletters; (5) e-cards or Invite a Friend promotions; (6) sweepstakes or contest registrations or surveys; (7) customer service or technical support; (8) consumer complaint(s); and (9) social media interaction.

We will only collect the Personal Information which is needed to fulfill your requests and/or our legitimate business objectives, as set out in this Privacy Policy, and we will keep it no longer than is necessary to fulfill such purposes and objectives. If you refuse to divulge your Personal Information when requested, and the disclosure of such Personal Information is indicated as being required (rather than voluntary), you will not be able to access certain functionality or areas of the Site (such as chat rooms and message boards).

ACCOUNT OR PRODUCT REGISTRATION AND ONLINE GAME PARTICIPATION

gamigo provides certain content, online games (each a “**Game**”) and/or services through the Site. Some areas of the Site may allow you to visit as a guest and remain anonymous, but you may not be able to access all the content and features of those areas without registering an account with us (e.g. in order to play our Games or purchase Game-related Virtual Items). Additional information, such as your real name and billing information, will be required (an “**Account**”) in order to access advanced features.

ONLINE GAMES

When you play any of the Games offered and/or served by gamigo or use any of the communication features on the Site, your Internet Protocol address (the unique number assigned to your server or Internet Service Provider) (your “**IP Address**”) from which you access any of the above may be stored in our records. gamigo may track such IP addresses for system administration, to report aggregate information, Site tracking, security purposes, or to prevent our servers from being abused.

When any Game is updated or “patched,” our patch routine may check your computer to see that you have the most recent version of Game-specific files. When you log in to one of our Games, your system specifications (such as OS, RAM, video card, monitor, system configuration, crash data, diagnostic data, etc.) may be reviewed/recorded by us for the purposes of analyzing and optimizing your Game experience and in order to provide you with customer service.

ONLINE PURCHASES

When you sign up to play one of our fee-based Games or you make certain online purchases from us (including the purchase of any Game-related Virtual Items), we may also require that you provide us with the necessary billing information such as your real name, credit card or payment information, and shipping or billing address, so that we may provide the content, Game, Virtual Item(s), service, or product to you.

Users have the ability to access, change and delete their payment method details through their Account.

MESSAGE BOARDS OR FORUMS

Please take note that information you post to the public areas of our Sites, which include but are not limited to, message boards, forums, chat rooms, and/or profiles, if applicable, will be displayed publicly and we cannot prevent further use of the information by third parties.

NEWSLETTERS AND INVITE A FRIEND PROMOTIONS

Typically, you need to have an Account in order to receive emails from us, provided that you may receive email communications from us on a one-time basis if you have contacted us directly with regard to a specific request or for email newsletters. You can opt-out of receiving future marketing emails from us by following the directions contained in the email to “unsubscribe.”

Notwithstanding your email preferences, from time to time, gamigo may send a transactional or relationship message which provides information concerning a transaction you have agreed to, your membership, subscription or account and/or warranty or safety information.

Also, except in jurisdictions where it may be prohibited by law to do so, the Site or service offerings available thereon may allow you to submit information about other people. For example, we may offer “Invite a Friend” promotions, like electronic postcards available on the Site or through our newsletters. In these situations, you may provide the email address and, sometimes, the name of a friend. After the “Invite a Friend” transaction is completed, that information is deleted. We will not retain the recipient’s email address for longer than necessary to complete the transmission. In our communication to your friend in this circumstance, he or she will only receive further information from us if he or she has affirmatively opted-in to receive future emails from us.

SWEEPSTAKES, CONTESTS, AND SURVEYS

To participate in some of our sweepstakes, contests, surveys, and other promotions, you may be asked to provide additional Personal Information such as your mailing address. This information may be collected by gamigo or by third parties such as co-sponsors or vendors for the promotion. Potential winners may be required to provide additional Personal Information for the purpose of verifying eligibility and awarding prizes, and for tax purposes. gamigo’s use of any such information will be governed by this Privacy Policy. The names of third parties such as co-sponsors (other than vendors hired by us to conduct, administer, and execute a promotion on behalf of gamigo) will be disclosed to you when you are asked to sign up for the promotion. You should review such third parties’ privacy policies to see how they may use any information that they collect.

CUSTOMER SERVICE, TECHNICAL SUPPORT OR CONSUMER COMPLAINTS

In order to resolve issues related to customer service, billing questions, technical and computer support, etc., we require you to provide us with the information necessary to look up your Account (e.g. billing information including personal information such as your billing and/or shipping address) so that we may resolve such issues properly.

SOCIAL MEDIA INTERACTION

When you engage with our content on or through third party social networking websites, such as Facebook and/or Twitter (or third party social media plug-ins and applications), you may allow us to have access to certain information from the applicable social media profile, such as your name, email address, photo, gender, birthday, location, your list of friends, people you follow and/or who follow you, the posts or the “likes” you make. By doing so, you agree to the use of this information in accordance with this Privacy Policy. When you provide personal information to us in this manner, it may be publicly viewed by other members of the applicable social media websites and we cannot prevent further use of the information by third parties.

Through some social networking websites’ privacy settings, you can control the data you share. For more information about how social networking websites handle your personal information, please refer to their privacy policies and terms of use.

Please be advised that information (including Personal Information) contained in a job applicant’s resume or otherwise submitted to gamigo in a business capacity is not subject to the terms of any other section of this Privacy Policy. The information obtained from your resume will only be used for the purpose of accepting and evaluating your submission for a job and contacting you, your previous employers and your references in connection with that purpose.

5. WHAT NON-PERSONAL INFORMATION WE COLLECT FROM YOU

General, aggregated, demographic, and non-Personal Information may be collected by gamigo. This type of anonymous, aggregated profiling and session data includes information that you have provided to us through surveys, polls, etc., and is combined with your IP address.

As part of the registration process for some services, you will be asked to provide information that does not personally identify you but can make you identifiable. For example, you will be asked to provide information concerning your date of birth, country, entertainment preferences, purchasing habits, and the like. This information is optional, but where provided it will be included in your Account profile and tied to your Personal Information. gamigo requests this information to understand you better and to also bring to your attention new services, programs, or offers that may be of interest to you.

If you are a non-EU Citizen and gamigo automatically collects non-Personal Information as stated above, and it is possible to link this information to your Personal Information, you hereby agree to gamigo linking relevant non-Personal information to your Personal Information.

In many cases, gamigo will automatically collect certain non-Personal Information about your use of the Sites. gamigo might collect, among other things, information concerning the type of Internet browser or computer operating system you are using, the domain name of your Internet Service Provider, your “click path” through the Sites, and the website or advertisement that was linked to or from the Site when you visited. To do this, gamigo may use cookies and other technology (see next section). In addition, your web browser or client software may transmit certain geographic information or information regarding your computer (capabilities, game data processing, etc.) to gamigo. gamigo may use this information to generate statistics about our user community and may provide such information to advertisers and/or our affiliates. gamigo may also use such information for security, system integrity (e.g. the prevention of hacking, cheats, etc.) or enforcement purposes.

6. INFORMATION ON COOKIES AND RELATED TECHNOLOGY

COOKIES

The Sites, and some services and advertisements displayed or made available thereon, may contain “cookies.” Cookies are a feature of your web browser which allow websites to transfer bits of information to your computer for recordkeeping purposes. A cookie stored on your computer can be used to “remember” things such as your password or that you have already registered an Account. This enables us to accelerate your future activities, saving the time that you would otherwise spend entering information such as your username or password.

gamigo (itself or through a third party service) also employs a software technology called clear GIFs (also known as “web beacons”) that helps us better manage content on our Sites by informing us what content is effective. Clear GIFs are tiny graphics with a unique identifier, similar in function to cookies, and are used to track the online movements of web users. In contrast to cookies, which are stored on a user’s computer hard drive, clear GIFs are embedded invisibly on Site pages and are about the size of the period at the end of this sentence. These clear gifs are tied to unique identifiers such as your IP address. Technology and tools such as clear GIFs assist in the delivery of cookies.

Our third party tracking service uses cookies and clear gifs to track information about customers to our Sites in the aggregate. They capture usage and volume statistics to help improve our Sites. We have no access to or control of these third-party tracking utilities. Upon request, gamigo will provide a non-exhaustive list of these third party service providers. If you wish to opt out this third party data collection, you may not be able to use gamigo’s services any longer.

We also use clear GIFs in our HTML-based emails to let us know which emails have been opened by recipients. This allows us to gauge the effectiveness of certain communications and the effectiveness of our marketing campaigns. For this reason, these types of clear GIFs are tied to Personal Information.

Cookies can either be permanent (i.e., they remain on your computer until you delete them) or temporary (i.e., they last only until you close your browser). Certain cookies are required to allow or facilitate electronic communications or are necessary to allow

the provision of online services at the request of the user. Personal Information, such as unique identifiers (i.e. IP address), collected through the use of these technologies will be collected, stored and processed according to this Privacy Policy.

gamigo (itself or through a third party service) uses cookies, clear GIFs, frames, server log analysis and other technology to:

- enable you to move around the Sites and use its features, such as accessing secure areas of the Sites;
- collect information about how you use our Sites, estimate our audience size and usage patterns, and improve how our Sites work;
- store information about your preferences, so as to allow us to customize your experience with the Sites and its subsites;
- to speed up your searches;
- recognize you when you return to our Sites;
- retrieve information for promotional, marketing or security purposes; and
- collect information about your browsing habits in order to make advertising relevant to you and your interests.

We use Google Analytics to provide web analytics data about our Site. Google Analytics places a cookie on your web browser that tracks and reports website traffic. None of the information collected by Google Analytics consists of or is linked to Personal Information belonging to you. You may opt-out of the service by installing the Google Analytics opt-out add-on found here <https://tools.google.com/dlpage/gaoptout>.

If you are a non-EU Citizen and use our Sites, you agree that we can place these types of cookies on your device and use clear GIFs.

Most Internet browsers will allow you to erase cookies from your computer hard drive, block acceptance of cookies, or receive a warning before a cookie is stored. You should refer to your browser instructions or “Help” screen to learn more about how to manage cookies. Please note, however, that if you block cookies, some portions of the Sites may not function properly.

DISCLOSURE REGARDING MONITORING

Please note that, when running, some Games may monitor your computer’s random access memory (“**RAM**”), media access control (“**MAC**”) address, configuration files and system files, etc., for unauthorized third party programs running concurrently with your Game which, in gamigo’s sole determination: (i) enable or facilitate cheating of any type; (ii) allow users to modify or hack the applicable Game interface, environment, and/or experience in any way not expressly authorized by gamigo; or (iii) intercept, “mine” or otherwise collect information from or through the applicable Game (an “**Unauthorized Third Party Program**”). In the event that a Game detects an Unauthorized Third Party Program, (a) the Game may communicate information back to gamigo, including without limitation your Account username, details about the Unauthorized Third Party Program detected and the activities or functions performed thereby, and/or details about your computer, and/or (b) gamigo may exercise any or all of its rights and remedies under the Terms of Use and Contractual Agreement (<https://www.gamigoworlds.com/en/legal/terms-of-use/>) or

the applicable Game EULA without prior notice to the user linked to such Unauthorized Third Party Program.

If you are a non-EU Citizen you acknowledge that any and all data that is stored and is resident on our servers, and communications that you make within the Sites or any Games traverse through our servers, may or may not be monitored by us or our agents (to the extent permitted by applicable law). You expressly agree to waive any rights of confidentiality that you may have in and to your communications (if any) when using any of the Sites' communication features, you agree you have no expectation of privacy in any of those communications and, accordingly, and you expressly agree to such monitoring of communications (including technical support and customer service communications) that you send and receive.
